To,
The Hiring Team
Friday Media Group

Subject: Application for Web Developer Intern Position

Dear Hiring Team,

I am writing to express my enthusiasm for the Web Developer Intern position at Friday Media Group. As a final-year B.Tech student specializing in Information Technology, I have developed a strong interest in backend development, clean code practices, and building robust web solutions that solve real-world problems.

I have a solid foundation in **web development** and have been exploring the **Express** framework to deepen my backend skills. I'm also comfortable working with **HTML, CSS, JavaScript, AJAX, jQuery**, and **SASS**, which I've used in personal and team-based projects to build responsive web apps. Additionally, I'm familiar with **API integrations**, Git-based version control, and have experience using tools like GitHub and Bitbucket.

What excites me about Friday Media Group is your diverse presence across marketplaces, e-commerce, job boards, and web services. I'm confident that an internship with your team will provide the exposure and mentorship I need to level up as a developer while making meaningful contributions to your products.

I would love to be part of your forward-thinking team and bring my passion for learning and problem-solving into your projects. Thank you for considering my application. I look forward to the opportunity to connect further.

Sincerely,
Mayank Raj
